CITY ITEMS.

The Old Folks' Concert last night at the Tabernaale, was a unique affair. The singers appeared in the sectume of the Revolution, and sang the quaint old tunes of long ago. The audience seemed remarkably well pleased, and at the close requested, through the Rev. Mr. Thompson, a repetition of the concert, which will be given on Wednesday night.

A new patriotic drama, founded on incidents in the Revolutionary War, was produced last night at the Museum to a very large audience. The piece is spirited and effective, and has many good points which tell admirably with an American audience. With a few improvements, which palpably suggest the nhew improvements, which paipably suggest the n-nelves it may be made a capital addition to the Mu-meum stage. One incident is worthy of special remark. Mr. C. W. Clarke, who plays "John Paulding," while in prison under the notorious Cunningham, rewhile in prison under the hotorists cummignain, re-plies to the threats of the Briton that he "will main-"tain the right of free speech even with his life." This pertinent allusion to the case of Mr. Summer brencht loud and long-continued applicase from almost every person present. The drama was written by Mr. H. J. Conway.

SECOND WARD REPUBLICANS,-The Second Ward Republican Association met last evening at the Maseum Hotel, No. 22 Ann street, for the purpose of completing the organization-T. D. Gale, Chairman, and Edward Pepper, Secretary. A report was received from James H. Welch, esq., Delegate from the Ist Assembly District to the Republican Convention at Syracuse, which was accepted. On motion, the protempore officers were declared the permanent officers of the Association. Messrs. Weich, Pepper and Wheeler were appointed a Committee to prepare a constitution and rules of order, and prepare a platform. Five Delegates to the Central Republican Committee were appointed as follows: James H. Welch, Edward Pepper, John Shipton, Thomas D. Gale, and James E. Carter.

THE TWENTY-FIRST WARD REPUBLICAN ASSOCIA-TION held its regular monthly meeting last evening. Mr. Chambers, delegate to the State Convention, being called upon, reported that the Convention was principally composed of the rank and file of the party, men well known in their respective localities for their ability, influence, and firm adherence to the great Democratic principle of Liberty. On metion of John Lalor, a series of resolutions condemnatory of the outrage on Senator Summer were unanimously adopted; after which the Association adjourned to meet on Friday evening, June 20, to hear report from delegates to the National Convention.

BOARD OF ALDERMEN .- A large number of petithose, numerously signed by merchants, propertyowners, and residents, in favor of an extension of the lease of Reservoir square to the Crystal Palace, or for the purchase of the building by the city, were referred to the Committee on Lunds and Places. The Board spent most of the evening in speech-making, without adopting any measure of public interest, except a resolution directing the Committee on Markets to investigate market abuses, and inquire into and report upon the system. A communication was received from Controller Flagg, in answer to a resolution, giving particulars and copies of the contracts for Corporation Printing, which was ordered to be printed

STRAWSERRIES .- Jersey strawberries made their appearance in New-York last week, having been delayed in arriving at maturity by the remarkably cold weather of the last few days of May. On Saturday these redcheeked strangers sold for 25 cents a basket, and be it knewn that Jersey strawberry baskets have now reached the very smallest possible point of reduction.

Wood absolutely refuses to be bent so as to form a
basket that will hold a less quantity. Strawberries at 25 cents a basket in New-York, may be understood abroad to be equal to \$1 50 a quart. Yesterday they were sold at 15 cents a basket. If the weather is faverable, they will be sold in the course of the week at half that sum, and will still be dear cating. Shall we ever see the day that fruit will be sold by some certain honest measure in this city ?

Correction.-In Mr. Joseph Hoxle's Speech, as reported in THE TRIBUNE, occurs the following pas-

"I intend now, God sparing my life, to give whatever there is left of me—that is not much [a voice: 'But it's good']—to resist the existence of the Slave power of this country [Cries of 'Good, good,' and most vociferous cheering]."

It should have read: to resist the extension of Sla-

THE ACCIDENT TO THE FULTON.

THE ACCIDENT TO THE FULTON.

To the Editor of The N. Y. Tribine.

NEW-YOUR, Monday, June 2, 1856.

In your notice of the departure of the Fulton you speak of an "explosi in and the scalding of the Chief Engineer," neither of which occurred. While the ship was in port. Flerreson's tubular condenser was applied for the paryose of using fresh water in the botters. The appendage was supposed to be complete, but on the departure of the steamer one of the pipes was found to leak sir which impaired the vaccum, and it was thought botter to remove the pipe and proceed with the old form of jet condensed, which was done. There were no mechanics sent for, but a few had remained on bond to go as far as the Bar and make any adjustment that might be found necessary. It was one of these mechanics, a Mr. Becker, who got scalded (not dangerously,) by the overflow of the shifting valve, which always eccurs when the engine is started.

E. W. SMITH, Resident Engineer.

Correction.—In The Tribune of April 19, an item appeared stating that Alondo W. Adams, Mary Melball and Johanna McMahon had been arrested and held to ball on a charge of perjury, upon the affidavit of John R. Savage and others. After a thorough investigation of the case before Justice Davidson, the charges were not sustained, and the complaint was dismissed. Mr. Adams states that Savago preferred the charge of perjury out of revenue, having been arcested at his testance on a charge of larceny. Judge Cuiver of the City Court of Brooklyn, Mr. Thomas Clark, Superintentent of the Post-Office, and others, testiled that they would not believe Savage under oath. The versatity of three of the other witnesses of the prosecution was also impeached.

FOUND DROWNED.—The body of an unknown man, dressed at a sailor, and about 40 years of age, was found yesterday in the dock, foot of Hammersiy stroot. North River. The body was much decomposed; and a Coronor's jury, impaneled to hold an inquest upon it, rendered a verdict of "Death from anknown causes."

RUN OVER AND KILLED .- Alexander Hibbard, a AUN OVER AND KILLED.—Alexander Hubbard, a child 7 years of age, whose parents reside at No. 92 East. Twenty-fourth street, was run over on Saturday afternoon, by one of the Broadway and Forty-fourth street omnibases, and so severely injured that he died yesterday. Coroner Perry hold an inquest upon the body, and the syndrone showed the occur-rence to have been purely accidental, and not owing to any carefessness of the driver. Verdict accordingly.

ACCIDENT FROM FIRE-ARMS, —Wilson Birch, a boy living at the corner of Suilivan and Bleecker streets, was dan servesly shot on Sunday evening, a loaded pistol which he had get held of having accidentally been discharged while in his bands. The ball from the weapon passed through his body, producing a wound which, it is feared, will prove fatal. Dr. Mott was called to attend him.

DISEASED MEAT AT WASHINGTON MARKET .- The Health Warden of the Third Ward discovered vesterday morning a quantity of diseased beef on the stand of Underhill & Co. Washington Market, and reported the matter to the City Inspector. The proprietors of the stand admitted the beef to be bad, but blamed a person with whom they had contracted for a supply. This person was arrested and will be examined to-day before Justice Councilly. The meat was from a diseased cow.

No business was transacted yesterday in the General Sessions, in consequence of a quorum of Grand Jurous not being in attendance. The Court stands adjourned until Wednesday, and expects during the remainder of the week to finish up its business for the Term.

The Late Burglary in Henry Street.—Geo.
Burns, alleged to have been an accomplice of John Watson
Schalitz in the burglary committed recently on the dwelling of
Mr. A. T. Briggs. No. 139 Henry street, was arcested late on
Bunday tight by the Seventh Ward Police. The particulars of
the burglary were published in our editions of yesterday.

stated that had been shot by one of a party of Germans with
whom he had had a dimently, and who subsequantly attacked
him at the corner of Cathasine and Hamilton streets. This
scory is undoubledly false, and solton up merely to screen his
accomplices from pastice. There are indisputable proofs that
sion of Barns, one of his accomplices wand property which
has been identified as having been stolen from the house of Mr.

There was an active and buoyant Stock market today, with more disposition to operate for a rise than we have seen for a long time. The case of the Money market and the passing away of the Crampton incubus has brought in buyers, and checks the willingness of the bears to put out short lines. In the immediate future of the Money market there appears to be no reason to anticipate stringency; on the contrary, there are all the elements of a continued abundance, and an abundance of money almost certainly produces a buoyant Stock market. We are approaching a season of the year, too, when outsiders, having senson of the year.

finished up their Spring payments, have usually a disposition to take a line in stocks, and a June rise is a common occurrence. The sales of Eric to-day are over \$,000 shares, opening at 57, and closing at 57\$, an improvement of \$\frac{1}{2}\$ \$\Phi\$ cent. The receipts for May were \$694,000, about \$27,000 in advance of April. Reading was buoyant and in good demand. The transactions reach 7,000 shares, closing at 90, an improvement of 1 per cent. A considerable portion of the sales are on Philadelphia account. Central advanced to 913, with considerable sales. Hudson River was 332. Delaware sold at 138, a forther advance of 2 P cent. advanced 10 & cent on an extra dividend of 4 & cent. in stock. The dividend is 6 \$\psi\$ cent in cash and 4 \$\psi\$ cent in stock, equal to about 111 to cent. Nicaragua in proved this morning to 131 on the news by the Ori-zaba, but at the close it was offered at 121. We hear that Messrs. Joseph L. White and Richard Schell resigned as Directors to-day. The Western shares were very firm to-day and in good demand. Michigan Southern was 98; Michigan Central, 98; Galena, 117; Milwankee and Mississippi, 84; Cleveland and Toledo, 76j. [Cleveland and Pittsburgh, 64, &c., all showing an advance of j to 1 P cent. In Railroad Bonds the business was moderate, but prices are well sustained. The market has an upward tendency for good Bonds. State Stocks are rather quiet but prices are firm.

The demand for Exchange is thus far light for the Wednesday steamer, and rates are heavy. Leading bankers' Sterling has been sold for 9%, less an & & cent; and we hear of no transactions above 91 @ cent. The supply of Commercial Sterling is larger than it has been, and a concession is submitted to to make sales. We quote 8 | 29 | F cent. France are heavy.

The business of the Sub-Treasury was: Paid. \$64.086 84; Received, \$112,96 73; Balance, \$10. 080,808 67; Paid for Assay Office, \$7,300 64; Paid on Disbursing Checks, \$43,404 10. The disbursements to-morrow will probably be large, as we hear that warrants to the amount of about a million were delivered at Washington to-day on account of the Texas Debt payment, and about the same amount drawn on the Philadelphia Sub-Treasury.

The Committee on Admissions of the Clearing House reported to-day on the application of the Park Back. The majority, Mesers Knapp, Clapp and Aims, reported in favor of admission, and the minor. ty, Messrs. Jones and Deming, against admission. After some discussion, the question was put, and resulted 25 to 17 in refusing to admit the Park Bank to he privileges of the Clearing House, on the ground that the capital is not fully paid up. Thus one of the most respectable Banks in the city, with a paid up capital of nearly \$1,700,000, is excluded from the facil-ities of the Clearing House because it has nominally a capital of some \$300,000 more, while other Banks are admitted to full communion with capitals of \$300,000 to \$200,000, and some have been members of the House when their capitals were impaired, not by non maturity of assessments, but by absolute losses by bad management. Under the precedent established by the vote to-day, it would appear that after August next the Bank of Commerce must be excluded from the

abundance, and some call loans have been made as low as 6 P cent. The current rate, however, is 7 P cent. The banks are free lenders, and borrowers today have found less difficulty in supplying their wants

then for months past. The Bank Statement to day shows a small increase of the specie line notwithstanding the shipment of some \$1,500,000, including the Saturday of the previous week, which counted but little in the average of last Monday. The contraction of the Banks has ceased after a reduction of loans of about five millions and a half. The present statement shows a small increase on last week. The deposits are apparently smaller, but allowing for the decreased cleanings there is an incresse of about \$700,000. The loans are now fiveand-a-half millions lower than they were on the 12th April, while the specie line shows an increase of \$1,400,000, and we are on the eve of a large disbursement from the Sub-Treasury for the Texas debt. The receipts of gold from the interior have been quite large during the week and still continue. The com-

The receipts of the Milwaukee and Mississippi Road for May have been less than for the same time last year by \$6,000 to \$10,000. The cause of the falling off s the low price of grain, which prevents farmers from sending it to market. The earnings of the La Crosse Road will be about \$40,000 against \$31,000 in April. The gross earnings of the Gulena and Chicago Road for the fiscal year ending 1st May is some \$2,200,000 and the running expenses \$1,000,000, leaving \$1 200,000 for the payment of interest and dividend. The Illinois Central carnings in May will be about \$190,000. The Erie, which received \$694,000, it is expected will settle up about \$600,000.

The steamer from Boston on Wednesday will take om \$300,000 to \$500,000 from here.

The business of the Clearing House was \$25,820,000. To morrow (Wednesday) at 121 o'clock, at the Merchants Exchange in this city, the Delaware and Lackawanna and Western Railroad Company will offer for sale at public auction, to the highest budder at the Bank of Commerce must be excluded from the House, as they will then have a nominal capital of ten millions, with only six millions paid up. If a respect-able Institution of the character of the Park Bank is to be kept out because its capital is not full, we see no consistency in holding fellowship with the Bank of Commerce when its capital is not full.

place and transporting to the points where it is consumed, it will be seen that there is left a handsome mergin for profits. The earnings of the Northern Division of their Road from Scranton to Great Bend, (only 48 miles,) with their local business in Western and Northern New-York has enabled the Company heretofore to pay interest regularly upon their stock, beside all expenses and interest on their funded and floating debt, including the cost of the unfluished portion of their line; and now that their Eastern Extension is completed and becoming productive, the directors seem to be warranted in anticipating liberal dividends upon the stock, which renders the convertible privilege contained in these Bonds quite an object.

LEAD—The market is dull; no further sales have been made.

MOLASSES is firm, but the business has been moderate; sales of 120 chds. Cuba Muscovado at 38 200.

NAVAL STORE—Spirits Turpention is quiet but steady; the large arrivals during the past week were pressed on the market, and holders therefore had to accept low rates; but as the prospective receipts are not large, holders are not disposed to accept any lower rates. For export the demand is fair. We notice sales of 310 bbls. at 37 2074c, and small parcels at 33c, cash, the market closing steading at 374 200c. Crade is martine. TallioW—The market is steady; the demand fair; sales of 18,000 Ha It [1,316]c. cash.

WOOL.—The cemand is very moderate, and the sales are unimportant; the tendency of prices continues downward, but this may well be anticipated from the rates which provailed during the past three months. The stock, however, on hand is very light, but as the attention of all parties is directed toward the new clip, holders are disposed to make a slight concession from form former rates, in order to close the accounts of the old year.
